"Gary The Horse"

In a nutshell, Concept's Gary The Horse series is a performance user's dream. At the heart of this beast is the awesome power of AMD's new Ryzen 7 3800X CPU, offering up to 4.5GHz for clock-speed hungry tasks, and 8-cores and 17-threads to slice through long rendering tasks. We're talking serious gaming and graphics design performance here, thanks to a VR-Ready GTX 1660 graphics processor with 6GB DDR6 V-RAM (Need more graphics horsepower? Check out the upgrades below). Adding to this is state-of-the 1TB NVME M.2 Solid State Drive technology, offering up to 27X better performance over standard Hard Disk Drives and a 10X improvement over SATA SSDs. All of this is packaged in a cool-looking and cool-running chassis with excellent accoustic characterstics and the ability to endlessly upgrade. Comes ready-to-run with a performance gaming keyboard and a gaming rat.

Processor	AMD Ryzen 7 3800X, with Wraith Prism cooler, 8/16 4.5GHz
Motherboard Chipset	X570
RAM	16GB DDR 4 3200 HyperX
Primary Drive	1TB NVME Solid State Drive
Secondary Drive	Optional
Cooling System	Wraith Prism
Chassis Fan	4 x 120mm fan
Graphics Card 1	GTX 1660 Super w. 6GB DDR6 V-RAM
Power Supply	InWin 600W Modular Power Supply
Keyboard	XPG Infarex Gaming Keyboard
Mouse	MadCatz Gaming Rat
Chassis	InWin 303 Chassis
Operating System	Windows 10 Professional

Windows installation, configuration and testing included

Price: **$2,972.10**

Options	
1 TB Hard Drive	$135
2 TB Hard Drive	$195
Upgrade from GTX 1660 to RTX 2060	$225
Upgrade from GTX 1660 to RTX 2080	$1,012
Upgrade from GTX 1660 to Quadro P200 (for AutoCad)	$274
