

Concept Open 8700K

Our Masterpiece of Design and Performance

Simply put, our Concept Open Air 8700K may well be the finest computer we've ever built. A unique Open Air chassis provides the utmost in cooling performance. The awesome Intel-i7-8700K 6-core 4.7GHz processor provides the ultimate in system performance. Equally awesome is the Nvidia RTX 2080 graphics card with 8GB of dedicated VRAM. System memory is a massive 32GB of DDR-4 RAM, and disk performance is a state-of-the-art 240GB M.2 Solid State Drive, coupled with a 1TB Solid State SATA Drive. Assisting the Open Air design is a liquid CPU cooler, allowing the system to be pushed to extreme levels without breaking a sweat. You cannot buy a better performance / gaming computer.

Processor	Intel i7-8700K 12-core CPU 4.7 GHz
RAM	32GB DDR-4 RAM
SSD	240GB M.2 Solid State Drive
SSD	Micron 1TB SATA Solid State Drive
Cooling System	Masterliquid ML240L Liquid Cooling System
Graphics Card	NVIDIA GeForce RTX 2080 with 8GB V-RAM
Power Supply	Corsair 650W Modular Power Supply
Keyboard / Mouse	Wireless Keyboard & Mouse
Chassis	Thermaltake Core 3 Open Air Chassis
Operating System	Windows 10 Professional

Windows installation, configuration and testing included

TOTAL \$4,098.40
