

Level 20

In a nutshell, Concept's Level 20 Series is a performance user's dream. At the heart of this beast is the awesome power of AMD's new Ryzen 7 3700X CPU, offering up to 4.5GHz for clock-speed hungry tasks, and 8-cores / 16-threads to slice through long rendering tasks. We're talking serious performance here - just add the gaming or designing graphics card of your choice. Adding to this is state-of-the-art NVME M.2 Solid State Drive technology, offering up to 10X better performance over SATA SSDs, and 27X better performance than Hard Disk Drives. And all of this is packaged in a cool-looking and cool-running chassis with excellent acoustic characteristics and the ability to endlessly upgrade.

Processor	AMD Ryzen 7 3700X, with Wraith Prism cooler, 8/16 105W AM4 76MB 4500MHZ BOX
Motherboard Chipset	Asus M570-P
RAM	16GB
Primary Drive	500GB NVME Solid State Drive
Secondary Drive	Optional
Cooling System	Wraith Prism
Chassis Fan	4 x 120mm fan
Graphics Card	RTX 2060
Power Supply	Corsair 750W
Keyboard / Mouse	Optional
Chassis	Level 20
Operating System	Windows 10 Professional

Windows installation, configuration and testing included

Price: \$2,957.15

Options

Upgrade to 32GB RAM	\$135
Upgrade to 64GB RAM	\$270
Upgrade from 500GB SSD to 1TB SSD	\$234
2TB Storage Hard Drive	\$175
Nvidia Quadro 2000 for CAD/3D Modeling and Rendering	\$695
Zotac GeForce RTX 3080	Please Call

Designed and hand-assembled by
